

VOTE WAS NOT REACHED

The Campbell Matter Goes Over Till To-Day.

COMMITTEEMEN ABSENT

Reports are Surely to Be Made This Week—Senator Claytor's Bill Reported—Fine Work of Colonel Newhouse's Committee.

The House Committee for Courts of Justice held a meeting yesterday afternoon, but owing to the slim attendance of members did not take up the Campbell case. Only eight members were present, the absentees having been Messrs. Southall (chairman), Davis, Duke, Llon, and Sobrell. Mr. Southall is detained in Amelia by the indisposition of his mother, and Mr. Davis is in New York on important business. He wired Mr. Cardwell that he could not possibly reach the city before to-day. Mr. Llon has been at his home, in Prince William, for several days, and Mr. Duke in Charlottesville attending to some important law matters.

Mr. Sobrell is engaged with his law partner, Colonel Cabell, in the trial of an important criminal case in Danville, and will be unable to return here for several days.

The committee decided to hold another meeting to-day, when it is thought that most of the absentees will be on hand. Every effort will be made to get the reports in the House before the end of the week, and they will likely be assigned to-day and submitted to-morrow.

It is not known whether or not Mr. Southall will join his colleagues in either report—if there should be so many as two—for the reason that his term as a member of Congress from the Fourth District began on yesterday. He has been, however, sent in his resignation as a member of the House of Delegates, and there are those who contend that he may, if he will, serve out the term in the latter body. It is believed, however, that Mr. Southall will shortly resign his seat in the House, and allow a special election to be held to fill the vacancy, though, in the meantime, he may sign one of the reports in the Campbell case.

There is still great interest in the Campbell matter about the Capitol, and the reports are being eagerly watched for by the public.

The Committee on Prisons and Asylums of the House met yesterday afternoon to consider the bill offered by Senator Claytor, of Bedford, to require the State to receive and care for the insane, feeble-minded, and other persons who are unable to take care of themselves in the several State asylums.

Superintendents Foster, of the Eastern; Blackford, of the Western, and Preston, of the Southwestern Hospitals, appeared before the committee and gave their views upon the bill.

They were inclined to not favor the bill and were questioned by the committee at some length. Mr. Claytor was called upon to explain his bill in a brief explanatory speech.

After considering the bill at great length it was favorably reported by the committee.

Colonel S. M. Newhouse, of Culpeper, is the first committee chairman to make a complete report of all the work assigned to his committee relating to the adjustment of the statutes in conformity with the new Constitution of the State. His report on the last branch of his work yesterday, and it related to the management of prisons as provided by the Constitution.

The report on asylums has already been made and adopted by the House. The popular chairman desires that much of the credit for the good work in getting the reports ready so speedily should be given to Hon. Thomas H. Edwards, of West Point, and Captain Charles Trotter Lazzler, of Petersburg.

The Senate Committee on Finance is holding sessions almost daily considering the general revenue bill. It has considered yesterday the building and loan associations and asked that the amendment put on in the House, doubling their taxes, be stricken out. Hearings are being given from time to time to the various interested parties, and the consideration of the bill will require a great deal of time.

The General Laws Committee of the House yesterday afternoon considered the bill to amend the act to provide for a Board of Telegraphy Examiners, and heard Mr. W. A. Glasgow, Jr., in opposition.

At the end of Mr. Glasgow's speech the matter was postponed until to-morrow afternoon, when Hon. A. P. Thom, of Norfolk, will appear against the bill.

The bill offered in the House by Mr. Toney, of Manchester, to extend the time in which street railway companies are required to vestibulate their cars for the protection of motormen and conductors, will be considered by the committee on the subject, it will be recalled, was passed at the instance of Hon. B. C. Folkes, of this city.

The bill of Hon. John Whitehead, of Norfolk, to require stationary engineers to stand examinations, will come up this afternoon at 4 o'clock before the House Committee on Manufactures and Mechanical Arts. The bill is being pressed by the State Association of Stationary Engineers.

The Toney bill, which passed the House on Monday, is regarded as one of the most important measures which has been enacted at the present session. It regulates the manner in which franchises shall be granted by cities and towns in the Commonwealth. There is great necessity of its becoming a law as speedily as possible, as no franchises of any kind can be granted by cities and towns until some law on this line has been enacted. Mr. Toney worked faithfully for the passage of the bill, and received the unanimous support of the House.

The House yesterday again refused to make the Jamestown Exposition bill a special order. In the absence of Chairman Boaz, the motion was made by Mr. Whitehead, but was vigorously opposed by Mr. Newhouse, and finally withdrawn.

FEBRUARY FAILURES

Much Better Showing than Last Year or 1901, Especially in Manufacturing.

R. G. Dun & Co. report 1,830 commercial failures during February, with liabilities of \$1,967,454, compared with 1,104 in the corresponding month of 1902, when the amount involved was \$1,302,029, and 1,024 in 1901, with liabilities of \$1,187,211. While the aggregate makes a very favorable comparison with the two previous years, the classified statement indicates even greater improvement in the two chief commercial classes. It was only in the third division, embracing brokers,

SPECIAL SALE

YOU CAN BUY FROM US \$5.00 WORTH OF SHEET MUSIC FOR 75 CENTS, CONSISTING OF CLASSIC AND POPULAR SELECTIONS OF VOCAL AND INSTRUMENTAL! DON'T MISS THIS OPPORTUNITY OF GETTING A BIG LOT OF DESIRABLE MUSIC FOR VERY LITTLE MONEY.

WALTER D. MOSES & CO
103 E. Broad Street,

transporters other than railways, and similar failures, that the statement last month was less satisfactory than last year. In banking and other strictly financial lines the record was much more satisfactory than that of January—7 failures for \$1,182,206, compared with 10 involving \$2,453,564, while in February, 1902, there were but three failures, with liabilities of only \$145,000.

Commercial failures in February for the past ten years are compared below:

Year.	No.	Liabilities.
1903.....	1,830	\$1,967,454
1902.....	1,104	\$1,302,029
1901.....	1,024	\$1,187,211
1900.....	881	\$931,048
1899.....	770	\$912,607
1898.....	1,155	\$600,000
1897.....	1,163	\$3,872,512
1896.....	1,163	\$3,130,461
1895.....	1,135	\$1,094,208
1894.....	1,204	\$1,761,811

As usual, a few very large failures provided special evidence of unsoundness, although a few occupations were more unfortunate than others.

Analysis of the commercial mortality for the month of February, according to branches of business, does not disclose any special evidence of unsoundness, although a few occupations were more unfortunate than others.

Liabilities of failures in leading branches of business in February are compared below with last year's.

Liabilities exceeded a million dollars in dry goods, which is very unusual, but the increase is explained by a very large failure in Michigan and another of considerable size in Texas. These two defaults supplied half the liabilities of the forty-nine failures in this class. There were also much heavier liabilities than in 1902 in liquors and clothing, but other increases were small, while improvement appears in general stores, hotels, hardware, drugs, jewelry and miscellaneous.

MR. STAPLES WAS ELECTED CAPTAIN

Chosen Yesterday to Head the Baseball Team of Richmond College.

At the regular monthly meeting of the Athletic Association yesterday Mr. "Roy" Staples was elected captain of the baseball team for the present season by a majority of 41 to 27 over his opponent, Mr. Ryland Sanford.

The Association could not have chosen a better man for this responsible position. Mr. Staples has been one of the leaders in the college athletics for several seasons, and he has done more perhaps than any other man there toward bringing athletic honors to the college. Mr. Staples is now training the team to meet the University of Pennsylvania on the 27th instant. Pennsylvania has never defeated Richmond College by a large score, and indications seem to point to a victory for the latter this time. The game will be played at Broad-Street Park in this city.

John Marshall Lewis, a student, had to leave college yesterday on account of sickness. Mr. Lewis has been very unwell for several months, but he continued his studies until he was forced to yield. The esteem and best wishes of the student body follow him, and it is hoped he will soon be well again.

At a meeting of the law class yesterday evening, Vice-President Lacy in the chair, the officers of the "F. C. Williams Moot Court" were elected. The officers elected were R. H. Willis, Commonwealth's Attorney, and E. W. Nelson, clerk. Judge Gregory will preside at the terms of court.

CARTER'S LITTLE LIVER PILLS

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

IS FIGHTING R.R. COMPANY

Henrico Case May Go to the Court of Appeals.

W. E. GRANT IS OBJECTING

The Chesapeake and Ohio Railroad Endeavoring to Straighten Its Track by Cutting Through the Farmer's Property.

A fight which may be carried into the Court of Appeals is now on in Henrico between the Chesapeake and Ohio Railroad and Mr. W. E. Grant, one of the best known property holders in the county. Incidentally, the case is of particular interest in that it calls into operation for the first time the Mann law requiring that the Governor of the State shall appoint a judge where the judge of the county cannot with propriety serve.

MADE A KICK.

It seems to be the desire of the railway to straighten its tracks where possible and get them in perfect condition. Some of this track has been running along the canal bank in Tuckahoe District, and the company has been making a movement to straighten it out. In order to do so, however, it will have to cut through the property of Mr. W. E. Grant, a former chairman of the Board of Supervisors of the county, and a well known man. Mr. Grant did not give entire agreement to the plans of the railway, and he at once instituted a vigorous kick. Judge T. Ashby Wickham, of Henrico, has properly lying near that of Mr. Grant, and for this reason he could not accept the Governor's appointment Judge Clifton, of Chesterfield, and the court decided in favor of the railroad and appointed commissioners to condemn the land of Mr. Grant.

Yesterday three commissioners met and entered upon their work. It was impossible to communicate with any of them last night. Their report has not yet been made, and hence it is impossible to say what they decided with reference to the case. It is believed, however, that Mr. Grant. It is understood that this gentleman has no idea of submitting as yet. A statement made yesterday was to the effect that he would carry the case to the Court of Appeals.

ORDER OF THE COURT.

The order of the court appointing the commissioners reads in part as follows: "It appearing from the order heretofore entered in this cause that the judge of this court is so situated as to be unable to perform his duty in this case, and in accordance with the statute made and provided, the Governor of Virginia having named Judge William I. Clifton of the County Court of Chesterfield county, as judge to try the case, and this cause came on this day to be heard before this court, so constituted, and the defendant filed his motion to quash the proceedings; but the court being of opinion that the Chesapeake and Ohio Railway Company has a right to condemn not exceeding one hundred feet in addition to the land occupied by the canal and its banks, which it is compelled by statute to maintain between Boesher's dam and the water, and being further of opinion that between the point 'A' on the map and the eastern line of T. B. Davies' land, not exceeding one hundred feet, can be taken for a change of location of plaintiff's road, the plaintiff be consent of defendant, he amends the petition and map therewith to conform to the opinion of this court; but the defendant by this consent does not waive his objection to the ruling of the court giving the plaintiff the right to condemn an additional one hundred feet, doth overrule said motion."

The commissioners appointed under this order are Messrs. S. C. Duval, Jacob W. Nuckols, M. F. Butron, A. E. Sheppard and Jacob P. Shaw.

At the Theatres.

At half past 9 o'clock last night the curtain rose upon the performance of "Allice of Old Vincennes," and if the audience grew impatient at this delay they were amply repaid for the long wait by the splendid production. Owing to a wreck on the road, the company reached the city very late, and when the audience had assembled the scenery had just reached the Academy. The production being in the hands of the company, there was a good deal of stuff to be gotten on the stage, and it was more than an hour before everything was in readiness.

Miss Coghlan, as Allice, gave a delightful impersonation. There are many marked peculiarities in her work, all of which add to the charm of her portrayals and give the stamp of originality to her conceptions. She has a well modulated voice, which she uses with fine effect, and she has a laugh that is distinctly her own. There is no resisting the charm of it.

The company was capable, and the entire production was on an elaborate scale. Arrangements have been made here for a great minstrel show to be given at the Bijou this afternoon and on Saturday afternoon. Many of these seats have been sold on orders by mail and telephone, and notice was issued last night that all seats so ordered and not called for early to-day will be placed on sale to meet the great demand.

Manager Thomas G. Leath leaves for New York to-day. He is going to look over the Musical Comedy Company which Mr. Giffen will bring to this city and Norfolk for the spring and summer season.

Primrose and Dockstader's minstrels will be at the Academy this afternoon and night. There will be a minstrel parade from the theatre this morning at 11 o'clock. Alan Dale, speaking of this attraction, said: "Compared with the comic operas and musical comedies now in the city, compared also with the farces, burlesques and extravaganzas now before the public, Primrose and Dockstader's minstrels was a whirlwind. I went to Primrose and Dockstader's minstrels in the great Broadway Theatre to scoff, because I fancied I had a soul above a minstrel show, which I had not visited for many years. I asked myself: 'Are we really going forward?' Are we really getting more intelligent? Have we replaced minstrelsy with anything worthier than what I see and hear in these minstrels? I had to answer all these interrogations in the negative."

Miss Perry Haswell and the George Farcott Company will begin the last

Great Western Champagne
—the Standard of American Wines.

Sold by respectable wine dealers everywhere.

half of their engagement at the Bijou this afternoon with a superb revival of East Lynne. The famous old play has been prepared for this revival by Mr. Jacques Futrell, formerly of this city, and now the personal representative of the popular actor-manager.

The play will be a strong drawing card, for the house is well sold for all the performances this week. The company supporting Miss Haswell should show to excellent advantage in this play, judging from the excellent work done in Florida during the early part of the week.

One of Charles H. Hoyt's most successful farces, "A Texas Steer," will be produced at the Academy next Saturday afternoon and evening. It is regarded as by far the best production from Hoyt's pen. "A Texas Steer" is a character who jumps from a Texas frontier town, with all its wild fun and peculiarity, to the national capital, the funny and amusing side of both localities being mirrored. It is said, with great accuracy, many well-tempered shafts are hurled at political shams and absurdities.

Theatre-goers who like musical shows have all seen that funny little fellow, George Sidney, as "Iszy," with the Ward and Vokes Company. That is all that need be said preliminary to the announcement of the coming of "Daisy Iszy" to the Bijou theatre week opening Monday, March 9th. In this new musical attraction George Sidney makes his inaugural bow as a stellar light. The character of the entertainment will be along the well known lines followed so successfully by Ward and Vokes—much music, singing and lightness, with laughter-creating fooleries freely interspersed. It is in exactly the same environment that Sidney has become well liked as a comedian, and the new vehicle, "Daisy Iszy," will fit him like a glove and present him in every favorable light. The company, the scenery, the wardrobe, every adjunct necessary to make a big, bright, musical, laughable feast will be found freely supplied.

The sale of seats for the engagement of Richard Mansfield at the Academy next Tuesday will open to-morrow morning. Seats ordered by mail and not called for by Friday night will be required to be called for by Friday night. The demand for seats has been the greatest in the history of the Academy.

Following Richard Mansfield will come Lulu Glaser in one performance on Wednesday, Florida in the attraction on Thursday and Friday night, and the and Ohio Railway Company will perform in two performances. The advance sale of seats for the Mansfield engagement will open to-morrow morning with no less than \$3,000 worth of orders.

BLOODY FIGHT OVER A CAT

One Person Killed and Three Others Badly Injured.

(By Associated Press.)

GUNTERSVILLE, ALA., March 4.—A telephone message from Grant, a small hamlet seven miles from this place, gives the details of a bloody fight which occurred near that place between the Taylor boys and the Barkleys. As a result Tom Barkley is dead and three others are injured.

The Barkley boys, Joe and Tom, were moving their household effects, when the Taylors began deriding them about moving the cat. The Barkleys became angry and the fight began. Seizing a heavy stick, Tom Barkley knocked down two of his tormentors, and made for the remaining one. This one pulled a pistol and shot Barkley through the arm.

At the conclusion of the battle Tom Barkley was lying in the dust with his skull crushed by a pistol ball through his arm and many knife wounds in his body. He lived only a short time. The remainder of the party were covered with wounds and severely injured. Two of the Taylors have been arrested.

CATARH

Often begins with a cold in the head, but it never stops there. The tendency is always from bad to worse. The simple cold becomes a protracted, stubborn one, while the discharge from the nose grows more profuse and offensive. The inflammation extends to the throat and bronchial tubes, causing hoarseness, a tickling sensation and an aggravating cough. The foul matter is continually dripping back into the throat fluids its way into the stomach, resulting in a distressing form of dyspepsia, nausea, and loss of appetite and strength. The catarrhal poisons are absorbed into the blood, and all the membranes of the body become infected, and what was supposed to be purely a local disease has become constitutional, deep-seated and chronic.

Sprays, washes, powders, salves and other external remedies give only temporary relief, and the disappointed and disgusted patient finally gives up in despair and declares catarrh incurable.

The only way to get rid of catarrh permanently is to treat it through the blood. The system must be toned up and all impurities removed from the blood, and this S. S. S. does promptly and thoroughly. It sweeps out the circulation everything of an irritating, poisonous character, allowing the inflamed membranes to heal when the mucous discharges cease, and the damage done to the health is soon repaired. S. S. S. keeps the blood in such a healthy, vigorous condition that cold, damp weather or sudden changes in the temperature are not so apt to bring on catarrhal troubles. S. S. S. is a vegetable medicine unequalled as a blood purifier, and the best of all tonics. But the remedy needed to thoroughly and effectually cure catarrh.

SSS

The Swift Specific Co., Atlanta, Ga.

TO INVAD THE WEST

A Contemplated Move of the Imperial Tobacco Company

IMPERIAL OF KENTUCKY

A Richmond Attorney Files at Henderson, Ky., the Articles of Incorporation—Is Capitalized at \$75,000.

From what can be learned of the situation, which happens to be very little, the Imperial Tobacco Company, of Great Britain, which has heretofore confined its direct operation with the farmers in America to Virginia and the two Carolinas, purposes to extend its field over the entire West, thereby cutting out some more of the "middle men"—exporters and commission merchants—who have been thriving off the tobacco trade with Britain.

Such is the belief of several local tobacco men, who are moved to take this view of the situation from a development in Kentucky, news of which is just generally getting around here. Efforts were made yesterday to communicate with Mr. Wellford C. Reed, one of the local representatives of the Imperial, but with the usual result. Mr. Reed sent word through a clerk that he had no information to give out.

WOULDN'T GO WEST.

When the Imperial came into this country it announced that "for the present" it would affect only the three States named above. In these States it would buy directly from the farmers on the warehouse floor, and the exporters, who had been shipping to England and selling to the Imperial through commission men there, were out of the game. So far, the commission men, it was said, had not the exporters and the commission men, but good for the general trade.

Simultaneously with this announcement came a statement from the Imperial to the effect that it would for the time being leave the great Western tobacco belt. Exporters there were safe for the nonce. It seems now, though, as if the trust means to go out West too.

"IMPERIAL OF KENTUCKY."

The chief cause for this belief is the incorporation of the "Imperial Tobacco Company of Kentucky," news of which is just getting around the market. Certainly the Imperial has gone this far; it will probably go further.

Mr. John McKelrell, a Richmond attorney, has just filed at Henderson, Ky., the articles of incorporation of the new "Imperial Tobacco Company of Kentucky." The corporation is capitalized at \$75,000, and the papers state that its main office shall be in Henderson, and that its business shall be the buying of leaf tobacco, stemming, reordering and rehandling of same, and all other business incidental to that branch of the trade. The incorporators are James McDonald, J. Duncan McDonald, Sydney McDonald and Wellford C. Reed, all of this city. Charles Samuel Clark, of Liverpool, England, and George A. Willis, of Bristol, England.

It is expected that a big rehandling plant will be erected at Henderson.

WOULD HAVE SOLVED POSTOFFICE PROBLEM

But for the accidental arrival and timely interference of two reporters for The Times-Dispatch last night, the postoffice problem and other features attendant upon the construction of a new building by the Federal Government in the city would doubtless have been solved for good and all. While the necessity of condemning the Shafter building would likewise have been obviated, for a conflagration was averted by the fortunate appearance of the series in question.

The building to be erected on the east of the postoffice, on Bank Street, dumped a lot of hot ashes in a barrel, which was placed near the wall of the house, and the barrel was ignited from the heat of the charcoal fire burning glowily for hours, and finally belching forth flames just as the reporters happened along the street.

The men were on the other side of the wall, and their attention had been attracted by the red glow from the barrel when they were some distance off. As they approached closer the barrel commenced blazing, and doubtless would have set fire to the building had not it been kicked into the street. Here it burned for some time, and finally burning slowly for hours, and finally belching forth flames just as the reporters happened along the street.

MANUAL TRAINING FOR CITY SCHOOLS

That the School Board will get \$5,000 for the introduction of manual training and kindergarten in the city schools is beyond doubt. The Council has adopted the budget which contained this item, a new one for this line-up of the city's expenses, and the Board of Aldermen has only to concur and the money will be available. The board will pass the budget next week. As soon as the School Board is free to use the money, steps will be taken for the introduction of manual training in the High School particularly, and kindergarten work in connection with the district schools.

TO PREACH ON "WORST THING IN RICHMOND"

At the Grace-Street Baptist Church to-night the Rev. Maurice Penfield Fikes, of Baltimore, who is conducting a series of revival services here, will preach on the subject "The Worst Thing in Richmond." A large attendance is expected.

Last night Mr. Fikes preached a fine sermon on "Is Jesus Christ a Prisoner in Richmond?" At the conclusion of the sermon many came forward to consecrate themselves. Much interest was manifested in the service.

PRICE OF CO L

Almost at a Normal State—No Immediate Fall.

Anthracite coal was quoted at \$7 yesterday, and split at \$5.50 and \$6.

This will be about the limit of the drop. The price is almost normal, and there is plenty of coal on hand.

None of the dealers interviewed could give any hope of a further fall at any time soon, and it is pretty safe to say that the price of coal is now about what it will remain for the balance of the winter.

WE ARE HAVING TWO SALES IN ONE

Heavy Weights! Half Prices! Light Weights! In one we offer you the choice of hundreds of Men's, Boys' and Children's Winter-Weight Suits and Extra Trousers, the remainder of this season's stock, at

50c on the Dollar.

In the other we offer you the choice of hundreds of Men's, Boys' and Children's Spring-Weight Suits and Trousers, carried over from last season, at

50c on the Dollar.

We are about winding up our winter season—what goods we have left, mostly small lots, must make room for the new spring goods, which we will exhibit very soon—just as quickly as the painters, carpenters and paper-hangers, who are making some important interior improvements, get through. During the interval we are having a Sale that will be astonishing in its scope and for its enormous values, even to those who always expect great things from us. It will be to your advantage to supply present wants and to anticipate future ones.

Half Prices Prevail.

Gans-Rady Company

BIG CAMPAIGN FOR MISSIONS

Programme Which Has Just Been Announced.

Plans are being made for a great State mission campaign, to be held in the Appomattox March 17th-24th, inclusive. Mr. R. D. Garland, of this city, the field secretary of the State Mission Board, will be present and will make several addresses. The programme has just been announced as follows:

From March 17th to 24th, inclusive, there will be addresses on the general subject of "State Missions—(1) Its
